Notes to the condensed interim financial statements

1. Basis of preparation

These condensed interim financial statements of the Company as at and for the nine month period ended 30 September 2021 are unaudited and have been prepared in accordance with the requirements of Malaysian Financial Reporting Standard ("MFRS") 134, *Interim Financial Reporting* and International Accounting Standard ("IAS") 34, *Interim Financial Reporting*. They do not include all of the information required for full annual financial statements, and should be read in conjuction with the Company's annual financial statements for the year ended 31 December 2020.

The preparation of the condensed interim financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities as at the date of the condensed interim financial statements, and the reported amount of income and expenses during the year. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The accounting policies and presentation adopted by the Company for the condensed interim financial statements are consistent with those adopted in the Company's audited financial statements for the financial year ended 31 December 2020, except for the adoption of the following:

MFRSs/ Amendments/ Interpretation

Amendments to MFRS 16, COVID-19 Related Rent Concessions beyond 30 June 2021

Amendments to MFRS 9, Financial Instruments, MFRS 139, Financial Instruments: Recognition and Measurement, MFRS 7, Financial Instruments: Disclosures, MFRS 4, Insurance Contracts and MFRS 16, Leases – Interest Rate Benchmark Reform – Phase 2

MFRS 9, Financial Instruments

MFRS 9 replaces the guidance in MFRS 139, *Financial Instruments: Recognition and Measurement* on the classification and measurement of financial assets and financial liabilities and on hedge accounting, effective for annual periods beginning on or after 1 January 2018. The standard eliminates the existing MFRS 139 categories of held to maturity, loans and receivables and available for sale.

The Company has applied the temporary exemption under Amendments to MFRS 4 - Applying MFRS 9, *Financial Instruments* with MFRS 4, *Insurance Contracts* ("the Amendments") which enables eligible entities to defer the implementation date of MFRS 9 to annual periods beginning before 1 January 2023 at the latest. Hence, the Company has not adopted MFRS 9 for the financial year beginning on or after 1 January 2018.

Amendments to MFRS 4 - Applying MFRS 9, Financial Instruments with MFRS 4, Insurance Contract

The Amendments allow entities to avoid temporary volatility in profit or loss that might result from adopting MFRS 9, *Financial Instruments* before the forthcoming new insurance contracts standard.

The Amendments provide 2 different approaches for the Company:

- (i) temporary exemption from MFRS 9 for entities that meet specific requirements; and
- (ii) the overlay approach. Both approaches are optional.

The temporary exemption enables eligible entities to defer the implementation date of MFRS 9 to annual periods beginning before 1 January 2023 at the latest. An entity may apply the temporary exemption from MFRS 9 if its activities are predominantly connected with insurance whilst the overlay approach allows an entity to adjust profit or loss for eligible financial assets by removing any accounting volatility to other comprehensive income that may arise from applying MFRS 9.

1. Basis of preparation (continued)

Amendments to MFRS 4 - Applying MFRS 9, Financial Instruments with MFRS 4, Insurance Contract (continued)

The Company's business activity is predominantly insurance as the liabilities connected with the Company's insurance businesses made up approximately 90% of the Company's total liabilities. Hence, the Company qualifies for the temporary exemption from applying MFRS 9 and will defer and adopt MFRS 9 together with MFRS 17 for the financial year beginning on or after 1 January 2023.

The following additional disclosures, required by Amendments to MFRS 4 for entity qualified and elected the temporary exemption from applying MFRS 9, present the Company's financial assets by their contractual cash flows characteristics, which indicate if they are solely payments of principal and interest on the principal outstanding ("SPPI"):

19. Dividend paid

An interim dividend of 12.6 sen per ordinary share under single tier system amounting to RM29,811,600.00 for the financial year ended 31 December 2020 was paid to the entitled shareholder of the Company on 19 January 2021.

20. Financial Instruments

20.1 Fair value of financial instruments

The Company's basis in estimation of fair values for financial instruments is as follows:

- The fair values of structured deposits, collateralised interest rate swap, forward purchase agreements and cross currency swap are based on the indicative market prices from the issuing banks;
- The fair values of quoted equity securities of corporations in and outside Malaysia and quoted unit trusts in Malaysia are based on quoted market bid price as at the end of the reporting period;
- The unquoted equity securities of corporations in Malaysia are stated at cost. Where in the opinion of the Directors, there is a decline other than temporary in value of unquoted equity securities, the allowance for impairment is recognised as an expense in the financial year in which the decline is identified;
- The fair values of Malaysian government securities, Malaysian government guaranteed bonds, Ringgit denominated bonds by foreign issuers outside Malaysia, unquoted bonds of corporations in and outside Malaysia are based on the indicative market prices provided by its custodian bank;
- The fair values of unquoted unit trusts in and outside Malaysia are based on the net asset values of the unit trusts as at the date of the statements of assets and liabilities obtained from fund managers;
- The carrying amount of Malaysian government guaranteed loans, policy loans, mortgage loans, automatic premium loans and fixed and call deposits approximate their fair values; and
- The carrying amounts of cash and cash equivalents, insurance receivables, other receivables and deposits (current), insurance payables and other payables (current) and accruals reasonably approximate their fair values due to the relatively short term nature of these financial instruments.

Estimation of the fair values of Malaysian government securities, Malaysian government guaranteed bonds, Ringgit denominated bonds by foreign issuers outside Malaysia, unquoted bonds of corporations in and outside Malaysia are based on the indicative market prices provided by its custodian bank which involve projections of the market yields based on past transactions. There are elements of uncertainty in projecting the expected market yields and these uncertainties arise from changes in underlying risk and overall economic conditions. As such, the projected market yields may be different from the actual market yields in future.

It was not practicable to estimate the fair value of the Company's investment in unquoted equity securities of corporations in Malaysia due to lack of comparable quoted market prices and inability to estimate fair value without incurring excessive costs.
