

Dear Editor,  
For immediate release:

## Allianz We Care Community supports members with RM7.7m payout since COVID-19 pandemic

**Kuala Lumpur, 6 May 2022** – Allianz Malaysia Berhad (Allianz Malaysia) through its Allianz We Care Community initiative, has paid out RM7.7 million (as at March 2022) to support members who were affected by the COVID-19 pandemic on top of the programme’s enriching healthcare and lifestyle benefits.

The Allianz We Care Community was set up in 2020, to support and reassure Malaysians in times of uncertainty, during and beyond the COVID-19 pandemic.

To date, the community has more than 1.3 million members including Allianz General Insurance Company (Malaysia) Berhad and Allianz Life Insurance Malaysia Berhad customers, as well as non-customers.

Allianz Malaysia Chief Executive Officer, Sean Wang said that as insurers, the company’s role was to offer protection when it was needed the most and the company wanted to step in and help those who needed support.

“Looking back to 2020, we were all worried about the worst-case scenarios and particularly about the future. It was necessary for us to assure the public, not just our customers, that we would provide security and protection to the best of our ability.

“Although we have already begun to transition to the endemic phase, the Allianz We Care Community will continue to provide active support for members based on the development of the COVID-19 situation.

“For now, we have more than 30 healthcare, lifestyle and wellness benefits available for registered Allianz We Care Community members and new benefits will be introduced regularly,” Wang said.

The programme also provides exclusive wellness and lifestyle benefits including post-COVID-19 recovery assessment health screening packages, discounted physiotherapy sessions, special home visit health screening packages, discounted medical equipment rental, and access to telehealth support among others.

Other than the benefits, the Allianz We Care Community also organises health talks covering COVID-19 insights as well as topics related to mental wellbeing, among others.
