## Allianz General empowers green habits with cash rewards for low-mileage BEV drivers

**Kuala Lumpur, 29 September 2025** – Allianz General Insurance Company (Malaysia) Berhad (Allianz General) is empowering green habits through its newly-launched Allianz Electric Vehicle (EV) EcoMiles benefit programme, which rewards low-mileage Battery Electric Vehicle drivers with real cash benefits.

Policyholders who insure their Battery Electric Vehicles (BEV) under an Allianz Private Car Comprehensive policy for private use can enjoy up cash rewards of up to 15% of their insurance premiums by activating the Allianz EV EcoMiles benefit via the MyAllianz app at no extra cost, turning their eco-friendly driving habits into tangible cash rewards.

"With Allianz EV EcoMiles, we are supporting our customers' green initiatives and rewarding them for their sustainable choices," said Allianz General Chief Executive Officer, Sean Wang. "Driving a BEV is already one step towards reducing carbon emissions. Now, whether you're a remote worker or a weekend-only driver, Allianz EV EcoMiles rewards you even further."

"This initiative reflects our commitment to recognising and supporting our customers' lifestyles while encouraging environmentally friendly practices. By offering tangible rewards for low mileage and BEV usage, we aim to empower our customers to make sustainable choices that benefit them as well as the environment," Sean added.

The reward tiers under Allianz EV EcoMiles are as follows:

- ❖ Tier 1: Customers with an annual average mileage of up to 10,000 kilometres will receive a cash reward of 15% of their net basic premium (basic premium after deduction of the No Claim Discount (NCD)).
- ❖ Tier 2: Customers with an annual average mileage between 10,001 and 15,000 kilometres will receive a cash reward of 10% of their net basic premium (basic premium after deduction of the NCD).

To receive the cash reward, policyholders must activate Allianz EV EcoMiles in the MyAllianz mobile app within 30 days of the policy's effective date. Following this, they are to submit their odometer reading and vehicle photos in the app within 14 days before or after the policy expiry date. Once the submission is approved, the cash reward will be credited to the policyholder's account.

For a limited time, Allianz General is also offering complimentary RM100 EV charging credits to customers who insure their BEVs under an Allianz Private Car Comprehensive policy between 29 September to 31 October 2025, successfully activate the Allianz EV EcoMiles benefit within 30 days of their policy effective date, and provide a valid email address and phone number during the purchase process.

They will then receive a redemption code for the complimentary charging credit via email and the code can be redeemed via the ChargEV app by Yinson Greentech.

Allianz General remains committed to protecting its customers and offering innovative solutions as well as the opportunity to benefit from environmentally conscious driving habits, ensuring peace of mind on every journey.

**About Allianz**

The Allianz Group is one of the world's leading insurers and asset managers serving private and corporate customers in nearly 70 countries. Allianz customers benefit from a broad range of personal and corporate insurance services, ranging from property, life and health insurance to assistance services to credit insurance and global business insurance. Allianz is one of the world's largest investors, managing around 749 billion euros\* on behalf of its insurance customers. Furthermore, our asset managers PIMCO and Allianz Global Investors manage about 1.8 trillion euros\* of third-party assets. Thanks to our systematic integration of ecological and social criteria in our business processes and investment decisions, we are among the leaders in the insurance industry in the Dow Jones Sustainability Index. In 2024, over 156,000 employees achieved total business volume of 179.8 billion euros and an operating profit of 16.0 billion euros for the Group.

\* As of June 30, 2025.
